/ ABOUT US /

Our

PHILOSOPHY

PEOPLE

People always come first for us. Our employees, customers and business partners are all part of the NIVEKO family. Honesty, consideration and fair play are the values we share and uphold every single day. Each of us is unique, as reflected in the fact that each of our pools is individual.

RESPONSIBLE AND SUSTAINABLE APPROACH

The environment and long-term sustainability have been a pillar of NIVEKO's corporate philosophy since the company was founded back in 1991. Our production processes are optimised so as to maximise the use of all materials and subsequent processing of waste in other industries. The emission-free filtration system coupled with solar energy used to heat the pool water ensures that our pools are environmentally-friendly to run.

QUALITY

What makes our pools so special is the highly skilled manual craftsmanship of our professionally trained employees, expertise passed down from generation to generation. We make our pools using a special High-Tech Polymer, which guarantees excellent durability - its quality is not affected by UV radiation and its unique composition means it is resistant to osmosis.

Our STORY

Overflow **UNDERFLOW**

MODERN AND MINIMALIST

The wholly **unique design** of the Underflow **hides the edge of the pool under the surrounding terrace**. The technical concept, developed by NIVEKO drawing on its own extensive experience, is a revolutionary combination of **functionality and luxury design**. Complement your garden with a stylish Underflow, and enjoy some unique and unforgettable moments.

The fact that the overflow edge is **hidden under the surrounding terrace** guarantees minimal water loss, while the Underflow maintains the unique design typical for overflow pools.

UNDERFLOW

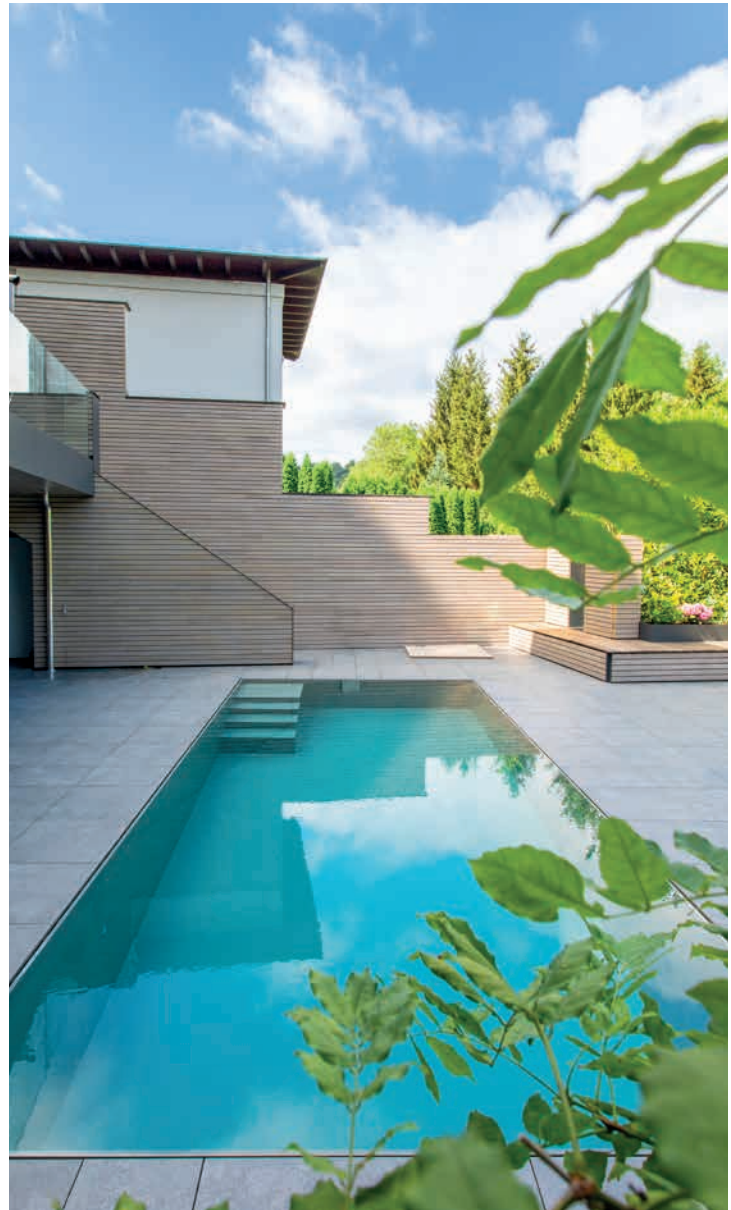

Overflow **EVOLUTION**

MINIMALISM IN PRACTICE

The pool's **elegant silhouette** merges gracefully with the surface of the water. The thin edge of the Evolution overflow is sure to appeal to anyone who **loves minimalism, pure and clean design**. Absorb yourself in the power of captivating lines.

The Evolution overflow features a reinforced **polished edge 20 mm thick**. For that perfect aesthetic appeal, it can be combined with **large-format tiles or wood**.

EVOLUTION

Overflow **ADVANCE**

DISTINCTIVE SHAPES

The dominant design of the Advance overflow is instantly eye-catching. The bold lines of natural stone surround the water with **a touch of pure elegance**. The Advance is a great addition **to modern architecture** and as the main centre point in any interior - its distinctive appearance shines in every situation.

The distinctive design of the stone-lined pool edge is perfect **for both exterior and interior** settings. Moreover, you can use **the silent Whisper version** with the Advance overflow, enabling you to experience a unique sense of peace and well-being.

ADVANCE

Overflow **INFINITY**

INTO INFINITY AND BEYOND

The never-ending surface of the water offers a literally breathtaking view of your garden and the surrounding area. The timeless design is sure to appeal **to the most fastidious of customers.**

Let your imagination run wild and **combine the Infinity with an Advance overflow or skimmer walls.** The Infinity overflow is a great choice **for sloping terrain.**

INFINITY

Overflow MULTI

FUNCTIONAL AND SIMPLE

A simple and functional design that offers a **wide range of configuration options**. The overflow channel can be fitted with a typical **PVC grid or embedded natural granite**. Customise the Multi exactly how you want it and let your individuality stand out.

The Multi is truly multifunctional – it is ideal **for the garden by the house, as an interior feature, and also as a public pool**.

MULTI

Skimmer **INVISIBLE**

ALMOST INVISIBLE

An exclusive type of skimmer pool developed entirely by NIVEKO. The unique skimmer technology built into the pool wall means you can enjoy **the highest possible water level**. A high-end solution **for the most demanding of customers**.

The clean, **literally invisible design** of the Skimmer Invisible is the perfect choice if you are seeking **an elegant skimmer solution** offering the greatest possible comfort and convenience.

INVISIBLE

Skimmer TOP LEVEL

A CLASSIC SOLUTION

The basic Top Level pool type is a proven choice as far as **the classic skimmer design** is concerned. Easy maintenance, installation and the best possible comfort. **A practical choice** to delight the whole family.

You can opt for a **recessed or non-recessed** model in the pool wall, which determines the height of the water level. The skimmer itself is then available **in several different colours**.

FUSIONLINE

ALTERNATIVE OPTION

Our years of experience in the field have enabled us to create a pool solution that offers **an alternative to the standard range of pools on offer**. The FUSIONLINE series is designed primarily for customers who want a pool with **a natural filtration system**. The overall concept fits in nicely with the NIVEKO brand philosophy and its approach to nature and the environment.

SPECIAL FILTRATION

Specially adapted to use **a natural type of filtration**, the design imitates the natural cycle of water in nature, helped along by an ingeniously **developed technological system**.

COMPREHENSIVE SOLUTION

FUSIONLINE offers **the classic advantages** of NIVEKO pools combined with a nature-based filtration system. Enjoy the enhanced feeling of swimming in a natural lake and complete harmony with **the water element in its purest form**.
